# Wolfram Mathematica<sup>®</sup> Enterprise Edition

Mathematica Enterprise Edition is the ultimate platform for production-level projects and content deployment—combining the power of Mathematica with enhanced support and development tools to create deliverables based on Wolfram's Enterprise Computable Document Format<sup>™</sup> (EnterpriseCDF<sup>™</sup>) standard.

#### **KEY BENEFITS**

- Develop interactive applications and reports that accept arbitrary user input, load proprietary data, and update results in real time
- Distribute interactive content to your audience as a standalone document or embedded in your product or service via the free Wolfram CDF Player<sup>™</sup>
- Protect your intellectual property by developing content that features code encryption, rights protection, and custom branding
- Deploy production-level projects with 24/7 Enterprise Support for critical issues and get project assistance from our experts with bundled technical service hours
- Maximize efficiency in computation and development time with an expanded pool of kernels supporting multicore computers or clusters
- Plus all the benefits of *Mathematica*, the world's ultimate application for computations

### Talk to one of our experts

Contact us to learn how you can integrate *Mathematica Enterprise Edition* into your workflows to provide colleagues and clients alike with state-of-the-art interactive reports and dynamic applications.

## Use Cases for EnterpriseCDF-Powered Content

Created exclusively with Mathematica Enterprise Edition

Make Reports Interactive in Real Time

### **FREE DISTRIBUTION**

Deploy internally or as part of a free product or service

- Create dashboards and interactive reports for managers to use in strategic planning
- Perform real-time analytics for what-if sensitivity analysis of proprietary data
- Easily embed interactive documents into a website with no code redevelopment required
- Analyze any data, including Excel, through arbitrary input fields

Employ Dynamic Input Fields in Reports

### FOR-PROFIT DISTRIBUTION

Deploy as part of a commercial product or service

- Create custom reports and interactive applications for clients
- Rights-protect intellectual property with code encryption
- Develop and sell computational publications with online distribution
- Custom-brand interactive content and bundle it with a free player
- Easily map custom UI's to computations for quick application development and deployment
