INTELLIGENT SOLUTIONS FOR INDUSTRY, RESEARCH & SCIENCE

ADDITIVE – YOUR COMPETENT SOLUTIONS PARTNER

ADDITIVE – for more than 25 years, a reliable partner for professional hardware and software solutions in industry, research, and sciences. From standard products to customized application projects including support. ADDITIVE stands for full service and sustainable knowledge transfer. The highly-qualified, interdisciplinary teams of the ADDITIVE business units are looking forward to implementing your tasks in an optimal and efficient way.

INTELLIGENT SOLUTIONS IN 4 BUSINESS UNITS

ADDITIVE-business unit SOFTWARE

- Sales and distribution of leading premium software in engineering and sciences for data acquisition, computation, analysis, visualisation and automation
- Consulting, service and support for ADDITIVE software products

ADDITIVE-business unit MESSTECHNIK & SENSORIK

- BeanAir – wireless data acquisition and sensors

ADDITIVE-business unit IT-SERVICE

- Cloud solutions, high-performance computing, remote service & monitoring, networks, network security, Internet integration, VPN...
- Full-Service including conceptual design, construction, operation, support and maintenance

ADDITIVE-business unit ACADEMY

- Certified, hands-on software & hardware trainings
- Trainings in the ADDITIVE ACADEMY or at your site

ADDITIVE PREMIUM-SOFTWARE

Statistics in Quality Management

-  Minitab Quality Companion
Dynamic solution for project management
-  Minitab Quality Trainer
E-Learning for statistical analysis
-  Minitab Devize
Monte Carlo simulations

Compute • Develop • Deploy

-  Wolfram SystemModeler
Highly precise multidimensional simulation
-  Wolfram Development Platform
Interactive cloud programming system

Data Analysis and Graphics Software

-  OriginPro
Pro-version with 3D surface fitting

ADDITIVE solutions in different areas

- Wireless data acquisition and sensor technology
- Industry 4.0 integration
- Data Mining, Big Data
- Predictive Analysis, Predictive Maintenance
- Data analysis and data visualisation
- Computation, modeling and simulation
- Statistical quality management
- Computational chemistry and cheminformatics
- Workflow automation
- Database access
- Web-based applications
- Networks, network security, internet integration
- Cloud services, cloud computing

The ADDITIVE premium products are:

Mathematica, Origin, Minitab, ADDITIVE Cloud Services, BeanAir.
